OLLAMA

Get the power of Large Language Models directly on your machine! Whether you're a developer or a student, Ollama lets you run AI like Llama 3 and Phi-3 without an internet connection.

Unlock the secrets to building private AI applications, keeping your data secure, and bypassing expensive API costs.

Run AI Locally in Seconds

# WHY OLLAMA?

DATA PRIVACY • ZERO COST • OFFLINE ACCESS • UNLIMITED TESTING

"The first time you will run a model locally, you realize you don't need a ₹580/month subscription or high-speed internet to build something amazing."

Running AI on your own laptop is a game-changer. You don't need to pay for expensive ChatGPT Plus or worry about your data being shared.

- **Privacy First:** Your prompts never leave your hardware.
- **Total Freedom:** No monthly subscriptions or token limits.
- **Always Ready:** Works perfectly without an internet connection.
- **Infinite Variety:** Easily swap between Llama 3, Mistral, or Phi-3.
